BIOGRAPHY

Gina Black was born in the United Kingdom and grew up believing that she would one day work in the entertainment industry. From her early childhood experiences performing and singing in school pantomimes, concerts and recitals, she worked towards completing a Drama and Humanities College Education. The Course included subjects from The London Academy of Music and Dramatic Art, professionally known as LAMDA.

Leaving Southern England behind, Gina moved to London to pursue a career in theatre. Working for a music publisher, Gina also took on part time work as a semi professional performer. Most of her work was in musical theatre which included making props and costumes, as well as performing front of house duties. During this time, Gina decided to pursue her main interest of working “behind the scenes”. She was soon employed as a Personal Assistant for a leading Theatrical Agent in the West End.

After a few years working in the West End representing many prominent actors, Gina decided to travel to Australia to explore new opportunities. She arrived in 1982 for a stay of 12 months and has remained here ever since.

Using experience gained from working with Actors and negotiating deals, soon saw her employed by the casting department of Crawford Productions. Working closely with the Casting Director, Gina had the privilege of meeting many of Australia’s leading actors while operating the camera as they auditioned for roles. Her passion for working behind the scenes took over again, and eventually she moved into Film Production.

After working on hundreds of hours of Series, Mini Series and Feature Films over a period of years, Gina eventually left to work in the Freelance world as a Production Manager.

Her freelance career took her to Queensland where she has spent many years working on Offshore Productions, specialising in Movies of the Week, Features and Series Television.

In recent years Gina has been Line Producing as well as Producing and has been dividing her time between Queensland and Victoria. She is now officially a “bi-coastal” Freelancer able to work as a local in both States.
