### QUALIFICATIONS

#### CLINICAL CANNABIS NURSE

I was asked to join the Ubuntu Wellness Clinic in the capacity of an “ open-minded ” Registered Nurse with Clinical qualifications. My main role was to learn and study the uses and effects of whole plant Cannabis medicines and to combine this with my technical training and medical knowledge. I worked closely with Dr Andrew Katelaris and Mr BJ Futter, founder of the Church of Ubuntu, and others to help develop both nutritional and medicinal cannabis tincture guidelines and dosage. In the 12 months spent with the Ubuntu Wellness Clinic I was able to study, research and monitor results via client feedback. These guidelines have been utilised by more than 4000 clients. I have a keen understanding of how the Cannabis plant works on our bodies and the Endocannabinoid system, and the results Medical Cannabis can bring .

#### RADIO SHOW PRESENTER

For 8 years I researched, wrote and presented, cutting edge alternative health topics on Port Douglas Radio 107.1 & 90.9 FM, it was a very popular segment. The owner being Micheal Gabour .
