### History

Born in London and educated at Shrewsbury school, Shropshire, U.K.

Moved to Australia at the age of 20

I joined the film Instrustry in 1988

& started working as a 1st AD in 1993

Currently living in Sydney, Australia.

I have a UK passport with Australian residency

### Experience

25 years as a 1st AD in TV commercials

I have travelled to, and worked in nearly every continent in the world, from the extreme heat of deserts to sub zero temperatures of frozen glaciers.

Filming underground, underwater and in the air.

I have had the pleasure to work with some extremely talented directors and producers, as well a great number of actors, dancers, sports stars, animals , artists, celebrities, politicians, stunt teams, musicians & of course the very generous general public, stretching over many years and in countless different situations and languages, leaving me privileged to bring an exteme depth of experience to any project.

I have also worked on some longer form projects as 1st AD with directors like

Jane Campion, Trent O'Donnell and Julie Money
