To whom it may concern,

As personal set PA for Johnny Depp, I can confirm that Ms Rebecca Keros was employed on the film 'Pirates Of The Caribbean 5', based both at the Warner Bros Studios in Oxenford, QLD and various locations along the Gold Coast, during the period of February to July, 2015.

During those periods, we required Rebecca to call upon her entire gamut of AD responsibilities. Fortunately, her performance was nothing short of exemplary and she continually proved herself to be a consummate professional. Additionally, Ms Keros is both a kindly, sweet natured woman, the ever-changing nature of film production failing to ever phase her. It was a genuine pleasure to have Rebecca as part of our team.

Therefore, it is with the utmost conviction that I can recommend her services to you today. Her diligence and sagacious disposition would be an invaluable asset to any production or individual. Should you wish to discuss this matter any further, please do not hesitate to contact myself via the particulars detailed below.

Sincerely,

A handwritten signature in black ink that reads "Nathan Holmes". The signature is fluid and cursive, with a large initial "N" and "H".

Nathan Holmes
