I have been a 1st AD for 17 years. My work has included planning and executing complex projects in unique locations all around the world. This has included work on land, sea and air, with stunts, A-List Cast, hundreds of extras, animals, VFX, SFX, animatronics, puppets, prosthetics and all kinds of vehicle rigs for camera, lighting and props.

I am comfortable and capable of co-ordinating multiple departments in complex situations, and revel in the problem-solving required for all productions, from tiny to tremendous.
