I am a freelance Production Designer based in Sydney and have worked in the Australian Film and Television Industry for over 18 years.

With a background in agency advertising and years of experience working with some of Australia's most renowned and creative film production houses I have developed a deep understanding of what is required for successful TV, Film and Media making.

I am creative, resourceful and solutions-focussed with the ability to think laterally under pressure ensuring I always find the best visual outcome for my client. My solid understanding of construction and can-do approach is under-pinned by tight budget management skills. I enjoy leading a team and am always up for a challenge.

Over the years I have worked on many campaigns from large international advertisements for brands such as Samsung, Toyota and Australian Tourism through to small, independent art house films.
