### SHOOTS:

I have Produced, Line Produced or Production Managed over 500 shoots, including TVCs, Photo shoots, Promos, Music Videos, Content films, and the occasional Short Film.

I’m familiar with most production scenarios, whether shooting a car spot in the Swiss Alps or creating a floating market in Bangkok, I’ve usually been there and done it, and if not I know someone who has.

In my experience anything can be achieved with a friendly smile☺ and a bit of determination.

### EXPERIENCE:

Extensive experience working with the best local crews, and knowledge of equipment, studios and locations in all major centers within Australia and other listed (International) locations on page 5.

Fully conversant with all production processes from conception / scripting to pre, shoot, post, and on-air delivery.

An appreciation and understanding of all crew roles and responsibilities – basically who does what and why.

Experienced Line Production working on International projects, including accurate and swift reconciliation for overseas clients.

Produced / Managed shoots in North America, South America, Europe, Asia, Australia, and NZ

Worked with: Cats, dogs, horses, sheep, bulls, snakes, spiders, a black panther and more

Stunts; including a car crash, precision driving, falling over, and falling off boats and more

Awareness of significant budgetary implications for most scenarios.

Identifying and selecting suitable key crew for specific projects.

Have overseen logistics for large set builds in remote locations.

Extensive experience in team leadership and management.

Identifying and resolving key moments in creative briefs.

Worked with SFX: rain, wind, guns, explosions etc.

Celebrity planning and security management.

Budget planning and financial management.

Trained to OH&S procedures.

### DIRECTORS

I’ve worked with include: Jonathan Teplitzky, Jeff Darling, Nick Reynolds, David Gaddie, Simon Ratigan, Phil Joanou, Pete Cattaneo and many more.

### SUGAR GLIDER FILMS / FREELANCE

I set up Sugar Glider Films in 2001 as a production service company with 3 local directors and an International car director , we filmed Ads for Toyota Asia and national Geographic.

### SUGAR GLIDER PRINT AND MOTION

Since 2005 I have produced print ads for a number of Sydney based and International **PHOTOGRAPHERS** including: Michael Schnabel, Ian Butterworth, Sean Izzard, Gary Sheppard, Simon Harsent, Adam Taylor, and Juliet Taylor.

On request I set up SGF Print and Motion to service both the local and International photographers I was working with

Highlights include shooting the ‘Hello Tomorrow’ campaign for Emirates in Dubai, Schweppes ‘Your Moments’ campaign in Buenos Aires and Allianz Partners at St Andrews in Scotland.

I have extensive experience drafting complex quotes for local and international clients and have a thorough understanding of ‘usage’ and its applications.

Due to my unique experience as a producer for both Print and Motion I’ve regularly doubled up as Producer on both .

### PROMOS

Over the last 5 years I’ve worked on some fantastic projects at Foxtel for Foxtel Creative, A&E Factuals, and Arena. I’ve also worked on campaigns for Joel Noble at Collude Creative for the National Geographic Channel, Comedy Channel, and Nickelodeon as well as SBS and more recently Channel 9 in Sydney.
