ABOUT ME

I was born in Siberia, before relocating with my family to Wollongong in 96, where I developed a deep love for the beach, ironically to end up living in Melbourne for about 20 years where I finished school and university. For the past 10 years I've been developing my skills in the film industry, starting out as camera and lighting assistant, and producing short films, I found my way to advertising and location management pretty quickly.

After several years working as a location manager at Allformat Locations with Paul Di Cintio, I branched out to freelance and started dipping my toes into production management roles. Throughout that period, I continued to produce short films, music videos, and eventually several TVCs.

Over the last few years, I've focused on presenting myself as a production manager, and was an in house production manager with Truce Films during 2021 which gave me an opportunity to get quite a few projects of various sizes under my belt.

Since April of 2022 I have relocated to Sydney to pursue my career in film and television, and to finally get back to warmer weather and great surf. With nearly 10 years of experience in the industry there's no project I can't handle, with patience and a great attitude.
